

## McElwaine Technical Services Limited

### Carbon Reduction Plan

#### Commitment to Achieving Net Zero

McElwaine Technical Services Limited is committed to achieving Net Zero greenhouse gas emissions by 2040.

The organisation is currently developing its formal carbon reduction and emissions reporting processes in line with its sustainability objectives.

### Current Environmental Position

McElwaine Technical Services Limited operates with 18 employees, maintains ISO 9001 certification and SafeContractor accreditation, manufactures hypochlorous acid products on-site, and operates a fleet of 14 company vehicles.

### Planned Carbon Reduction Measures

- Development of a formal carbon reporting framework
- Review of fleet efficiency and future low-emission vehicle options
- Reduction in operational energy consumption
- Improved supplier engagement and sustainability awareness
- Review of waste reduction and recycling opportunities
